Citizenship: China

## Academic History

### **Northeastern University, Shenyang, China**

Master of Engineering in Control Engineering, Advisor: Academician Lixin Tang  
2016 – 2019

### **Northeastern University, Shenyang, China**

Bachelor of Engineering in Automation  
2012 – 2016

## Employment History

### **HUJING Digital Media & Entertainment Group (Alibaba Group)**

Algorithm Engineer – Hyper-realistic Digital Human Generation  
2023 – Present

Developed 3D mesh-driven lip-sync synthesis for digital humans and multi-angle facial generation using diffusion models for 3D avatar modeling.

### **Microsoft Xiaoice**

Algorithm Engineer – Facial Generation for Digital Humans  
2022 – 2023

Designed GAN-based models for generating photorealistic AI faces

### **Amap (Alibaba Group)**

Algorithm Engineer – Map Navigation Time Estimation

2021 – 2022

Built attention-based models to improve ETA accuracy in large-scale navigation systems.

### **BIGO Technology**

Algorithm Engineer – Image Generation

2020 – 2021

Developed real-time, mobile-optimized GAN models for image style transfer.

### **TAL Education Group**

Algorithm Engineer – Lip-sync Synthesis for AI Teachers

2019 – 2020

Created GAN-based lip-sync models to generate natural mouth movements for AI teachers.
